

April 2020

Dear Friends,

We are safe and well. Thank you for praying for Bobby's Subacute Thyroiditis (亞急性甲狀腺炎) treatment. He has fully recovered at the end of November last year.

Many of you are asking if we and our ministry are affected by the Coronavirus outbreak. YES and NO.

NO. We continue to have church services in the church building. Everyone will have temperature checks and hands sprayed with 75% alcohol at the entrance of the church. Bobby will be sharing an Easter message on Easter Sunday, April 12. We will distribute plastic Easter eggs and tracts to church neighbors and have invited many families in the communities to the egg coloring activities.

Sunday school outside the building

Sunday service

YES. People are urged to wear face masks when in crowded and confined places. Waiting in line outside a drugstore or pharmacy to purchase the weekly ration of masks has become our weekly routine. In order to minimize social gathering, a lot of meetings have gone online. We have found ourselves spending more and more time in Zoom meetings, and connecting with others via social media – FB, LINE, WhatsApp, WeChat.

Pray that Living Hope through the Resurrection of Jesus Christ will bring comfort and healing to those who are affected by COVID-19.

Partners in Christ,
Bobby and Michele

Below are pictures of prevention measures taken by a school and temples:

School children use plastic dividers at a school in Taiwan

Social distancing. Avoid hand carrying. Over one hundred statues of deities taking a bus from Yunlin County to Taipei (about 150 miles) to attend a pandemic “prayer and blessing” ceremony.

Fastened by ropes instead of seat belts
