

Dear Friends,

We are very thankful that Yutien ministry in Tianwei is thriving even in the midst of pandemic. Over 40 children and adults came to the Easter Sunday outreach. Below are some pictures taken on that Sunday. Bobby's sharing of the Easter message, egg dyeing, handmade paper baskets, singing "Because He Lives" to church neighbors.

While the lives of most people in the world have been affected by COVID-19 in the past six months, thanks to unified ongoing efforts by individuals, central and local governments to control the outbreak, residents in Taiwan enjoy a relatively normal life. A light is added to pedestrian traffic lights to serve as a friendly reminder to wear masks and keep social safe distance. The lights below are outside Desmond's medical school.

wearing masks

social distancing

蟬鳴荔枝熟 This is a Chinese saying : “when you hear the sound of Cicada, lychees are ripe.” Every year when we see the “harvest” of lychees, it’s hard to believe that we are already into the mid-year. When we see the “harvest” of lychees, we are once again reminded of Jesus’ words: “The harvest is plentiful, but the workers are few.”

June 29, 2020 marked 24 years of our service in Taiwan. We are grateful for your faithful partnership in prayers and financial support over the past 24 years.

Desmond is preparing for stage one of Taiwan National Medical Board Exam on July 25. The exam questions are all in Chinese. **Pray** that he will get enough sleep and stay healthy. **Pray** that he will remain focused and calm when he takes the exam.

May we all find hope in worshiping God in these times of uncertainties, and joy in sharing His hope with others who are facing fear. Let’s **pray** for the physical and mental health of all healthcare workers on the frontline responding to care for coronavirus patients while also keeping up with all their other everyday demands.

Partners in Christ,
Bobby and Michele
